CORPORATE PRODUCT

LIST

WWW.AFRICANSNAKEBITEINSTITUTE.COM

TO OUR CUSTOMERS,

The **AFRICANSNAKEBITEINSTITUTE** has gone to great lengths to secure quality products for our market. We already have the largest range of snake tongs and snake hooks available in Africa and our JM snake tongs are of the highest quality and each product is guaranteed.

Snake tongs and snake hooks are vigorously tested during our snake handling training sessions and we receive very positive feedback from our corporate clients that make use of ASI products.

Wherever we struggle to find suitable products for our clients, we develop our own and both our lightweight snake gaiters and standard snake gaiters have become best-sellers to corporates, hunters, hikers, fly fishermen and even competitive mountain bikers. We have also developed gaiters for children.

Our range is always expanding and we are the largest supplier of quality snake handling equipment on the continent.

Please check out our product list and if there are related products that you need and that are not listed, do notify us and let's see if we can assist.

CEO
John Mearns

JM150 Snake Tong

C

ASI PRO200 Snake Tong

Best-seller

A

JM100 Snake Tong

The new and improved design of our best selling PRO 100 Snake Tong. A popular snake tong that is used extensively by snake handlers and in snake parks. Durable and very good quality – comes with a guarantee. Measures 110 cm in total length and weighs 670 g.

Available in Red, Blue or Black.

R1200.00

(Sent via Registered Mail, Postnet or Courier)

B

JM150 Snake Tong

The new and improved design of our PRO150 tongs. The 1.5 m tongs are by far our most popular snake tong for both discerning corporate and private clients. This tong is ideal for removing problem snakes, especially on mines, game farms and game lodges. The extra 50 cm (compared with the JM100) keeps the snake further away from the handler and is thus far safer. Measures 154 cm, weighs 800 g and comes with a guarantee.

Available in Red, Blue or Black.

R1295.00

(Sent via Courier)

C

JM200 Snake Tong

Our longest snake tong at 2 m and weighs 860 g. Ideal for removing snakes from a safe distance, especially those under beds or in trees. Available in Red or Blue.

R1395.00

SNAKE GAITERS

ASI Budget Snake Gaiters

Imported Snake Gaiters - the outer shell is made from a heavy duty nylon cordura fabric. And the inner is made from 10mm thick hard PE plastic board.

Two adjustable straps with buckles ensure a secure fit – one size fits all.

Tried and tested against bites from the Puff Adder, Cape Cobra, Snouted Cobra and Black Mamba with no penetration during testing.

Length 28 cm

Weighs 380 g (each)

R490.00 per pair

(Sent via Registered Mail, Postnet or Courier)

ASI Snake Gaiters

The ASI gaiters have been developed for African conditions. They extend from the ankle to just below the knee and have three Velcro straps - one size fits all. They are manufactured from two layers of Cordura Outer with a layer of Novabelt in the middle. These gaiters have been tested on a variety of snakes including the Puff Adder, Black Mamba, Forest Cobra, Snouted Cobra and Rinkhals with excellent results - no snake managed to get a fang through all three layers. They weigh 535 grams and measure 47 x 33 cm.

R895.00 per pair

(Sent via Registered Mail, Postnet or Courier)

Buckle option available

SNAKE GAITERS

Best-seller

ASI Snake Gaiters Lite

Lightweight gaiters proudly made in South Africa, are flexible snake gaiters that weigh 220 grams. The outer shell is made of Authentic 500D Cordura® with double Acrylic coating, water resistant and calendered for softer handling while the inner shell is made of two layers of DuPont™ - Kevlar® micro filament yarn. It is very finely woven material that renders exceptional protection against fragmentation, with an anti-stab capability. These two layers are stitched into an inner casing of high tenacity nylon (parachute material). The gaiters are one size fits all with a YKK® zip at the back. Each gaiter is adjustable at the back and has a loop for a shoelace to fit through on the underside. The Lightweight Snake Gaiters have been tested against bites from the Puff Adder, Cape Cobra, Snouted Cobra and Black Mamba with no penetration during testing. Ideal for hikers, birders, fly-fishermen, geologists, bush-clearing teams, hunters and mountain biking. Measures 38 cm in length and weigh 220 g each.

R1850.00 per pair

DANGEROUS SNAKES OF SOUTHERN AFRICA

Southern Africa has one hundred and seventy three different types of snakes. Seventy two are not venomous, while twenty nine can inflict rather painful bites. Twenty species are considered potentially deadly.

VERY DANGEROUS Black Mamba <i>Dendroaspis polylepis</i>	VERY DANGEROUS Green Mamba <i>Dendroaspis viridis</i>	VERY DANGEROUS Reddish Long Tail <i>Chorrodontophis longicauda</i>	VERY DANGEROUS Cape Cobra <i>Naia capensis</i>
VERY DANGEROUS Common Naja <i>Naja nigricollis</i>	VERY DANGEROUS Common Bearded Viper <i>Pseudonaja torquata</i>	DANGEROUS Black Mamba <i>Dendroaspis polylepis</i>	VERY DANGEROUS Black-headed Spitting Cobra <i>Chorrodontophis capensis</i>
VERY DANGEROUS Black Spitting Cobra <i>Chorrodontophis capensis</i>	VERY DANGEROUS Inland Cobra <i>Naia nigricollis</i>	VERY DANGEROUS Mozambique Spitting Cobra <i>Chorrodontophis capensis</i>	VERY DANGEROUS Forest Cobra <i>Chorrodontophis capensis</i>
VERY DANGEROUS Habu <i>Molophilus</i>	VERY DANGEROUS Zebra Cobra <i>Chorrodontophis capensis</i>	VERY DANGEROUS Puff Adder <i>Bitis aeneocephala</i>	VERY DANGEROUS Gaboon Adder <i>Bitis gabonica</i>

JOHAN MARAIS is the author of various books on reptiles including the best-selling *Complete Guide to Snakes of Southern Africa* that is a popular public guide and also a variety of scientific books on *Snake Bites, Venereal Diseases and Bites and Stings*. He is also a member of the International Society of Zoological Sciences (ISZ) and is a past leader of the Association of Southern African Snake and Scorpion Bites and Stings Specialists. His research is also published in the *Health Protection Council of South Africa (HPCSA)*.

EMERGENCY PROTOCOL
IN THE EVENT OF A SNAKE BITE
1. Keep the victim calm, immobilised and transport the victim to the nearest hospital without delay.
2. If the victim stops breathing, report to medical personnel or make use of a Dog Water Mask.
3. Call the Poison Information Centre helpline for further advice: 0800 300 377.

DO NOT
- apply a tourniquet
- cut or suck the wound
- use ice or any hot water
- give the victim alcohol
- give them anything to eat or drink
- remove any jewellery
- wash the bite
- apply any ointment
- use a tourniquet
- cut or suck the wound
- use ice or any hot water
- give the victim alcohol
- give them anything to eat or drink
- remove any jewellery
- wash the bite
- apply any ointment

COMMON SPIDERS OF SOUTHERN AFRICA

Southern Africa has well over 2,000 known species of spiders with very few that are of medical importance. Most spider bites are not spider bites but wounds caused by infections and other invertebrates. There has never been a fatal spider bite in Southern Africa.

EMERGENCY PROTOCOL

NOTES FROM MEDICALLY SIGNIFICANT SPIDERS MUST BE TREATED AS A MEDICAL EMERGENCY.

NOTE

FIRST AID FOR SNAKEBITE

SNAKEBITE...

IF THE SNAKE RESPONSIBLE HAS BEEN IDENTIFIED

In Boomslang or Twig Snake bites...

In Adder, Stiletto or Spitting Cobra Bites...

In Mamba and Non-spitting Cobra Bites...

WHAT TO DO...

IF THE SNAKE RESPONSIBLE HAS NOT BEEN IDENTIFIED

Immobilise the patient and promptly transport to hospital.

IF THERE IS PAIN AND SWELLING

Elevate the affected limb slightly above the heart and immobilise the limb.
NO PRESSURE BANDAGES

Wrap the affected limb in pressure bandages and apply a splint.

IF THE PATIENT EXPERIENCES DIFFICULTY WITH BREATHING

Apply mouth-to-mouth resuscitation. Make use of a Bag Valve Mask.

To order, please e-mail info@asi.org.co.za

IF THE PATIENT EXPERIENCES DIFFICULTY WITH BREATHING

PROMPTLY TRANSPORT TO THE NEAREST HOSPITAL
